1 Open your eyes as the sun is rising  
Welcome the day  
Dawn is painting the sky with colours  
Night fades away  
Leaves are trembling in the trees and  
butterflies dance upon the breeze and  
birds are singing without a reason  
joyous and gay.

3 Open your heart to the love around you  
welcome it in  
Waters of blessing and love surround you  
flowing within  
Love's not absent, it's just concealed  
Soon what was hidden shall be revealed and  
what was wounded shall soon be healed  
as joy will begin.

2 Open your arms to embrace the promise  
each day can hold  
Infinite possible future stories  
wait to be told  
Every window and every door  
reveals a view you've not seen before and  
new discoveries to explore  
new dreams to unfold.

4 Open your soul to the light within you  
let it shine free  
Shadows and darkness are but illusions  
of memory  
Sing a song that flies to the sun  
a celebration that's just begun  
as light and melody join as one  
in sweet harmony.
